Globally, the food system and the relationship of the individual to that system, continues to change and grow in complexity. Eating is an everyday event that is part of everyone ' s lives. There are many commentaries on the nature of these changes to what, where and how we eat and their socio-cultural, environmental, educational, economic and health consequences. Among this discussion, the term "food literacy" has emerged to acknowledge the broad role food and eating play in our lives and the empowerment that comes from meeting food needs well. In this book, contributors from Australia, China, United Kingdom and North America provide a review of international research on food literacy and how this can be applied in schools, health care settings and public education and communication at the individual, group and population level. These varying perspectives will give the reader an introduction to this emerging concept. The book gathers current insights and provides a platform for discussion to further understanding and application in this field. It stimulates the reader to conceptualise what food literacy means to their practice and to critically review its potential contribution to a range of outcomes.

This book constitutes the refereed post-conference proceedings of the 6th European Conference on Information Literacy, ECIL 2018, held in Oulu, Finland, in September 2018. In the stillness of the courtroom a bookseller stands accused of selling a book. Is it a work of sensitive genius or an execrable volume of pornography? Could it have driven a respectable college boy to commit brutal rape? And who is the author of the novel at the vortex of a storm of sensation and controversy? Michael Barret has been asked by a friend to join him in a small law partnership, but has also been offered a huge salary to go into big business. He's certain of his choice, till he is given a chance to be involved with a major case involved with protecting free speech. The case is about the explicit book "The Seven Minutes", which some people consider pornography, while others, Barret included, feel is impressive literature. The main focus of the prosecution's case is a teenager who bought the book, and was soon after arrested for rape. According to the prosecution, the book insinuated the boy to do what he did, so it must be banned. The novel follows the course of the trial, as both Barret and the prosecutor search for reputable witnesses to prove their side.
