The editors and contributors to Color of Violence ask: What would it take to end violence against women of color? Presenting the fierce and vital writing of organizers, lawyers, scholars, poets, and policy makers, Color of Violence radically repositions the antiviolence movement by putting women of color at its center. The contributors shift the focus from domestic violence and sexual assault and map innovative strategies of movement building and resistance used by women of color around the world. The volume’s thirty pieces—which include poems, short essays, position papers, letters, and personal reflections—cover violence against women of color in its myriad forms, manifestations, and settings, while identifying the links between gender, militarism, reproductive and economic violence, prisons and policing, colonialism, and war. At a time of heightened state surveillance and repression of people of color, Color of Violence is an essential intervention. Contributors. A trillion-dollar industry, the US non-profit sector is one of the world’s largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical activists, educators, and non-profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, *The Revolution Will Not Be Funded* presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. Contributors. " A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence. " —Michelle Alexander, author of *The New Jim Crow* Invisible No More is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women ’ s experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

Abolition. Feminism. Now. is a celebration of freedom work, a movement genealogy, a call to action, and a challenge to those who think of abolition and feminism as separate—even incompatible—political projects. In this remarkable collaborative work, leading scholar-activists Angela Y. Davis, Gina Dent, Erica R. Meiners, and Beth E. Richie surface the often unrecognized genealogies of queer, anti-capitalist, internationalist, grassroots, and women-of-color-led feminist movements, struggles, and organizations that have helped to define abolition and feminism in the twenty-first century. This pathbreaking book also features illustrations documenting the work of grassroots organizers embodying abolitionist feminist practice. Amplifying the analysis and the theories of change generated out of vibrant community based organizing, *Abolition. Feminism. Now.* highlights necessary historical linkages, key internationalist learnings, and everyday practices to imagine a future where we can all thrive.

Controversial and forward-thinking, this volume presents a much-needed analysis of restorative justice practices in cases of violence against women. Advocates, community activists, and scholars will find the theoretical perspectives and vivid case descriptions presented here to be invaluable tools for creating new ways for abused women to find justice.

Women ' s rights advocates in the United States have long argued that violence against women denies women equality and citizenship, but it took a movement of feminist activists and lawyers, beginning in the late 1960s, to set about realizing this vision and transforming domestic violence from a private problem into a public harm. This important book examines the pathbreaking legal process that has brought the pervasiveness and severity of domestic violence to public attention and has led the United States Congress, the Supreme Court, and the United Nations to address the problem. Elizabeth Schneider has played a pioneering role in this process. From an insider ' s perspective she explores how claims of rights for battered women have emerged from feminist activism, and she assesses the possibilities and limitations of feminist legal advocacy to improve battered women ' s lives and transform law and culture. The book chronicles the struggle to incorporate feminist arguments into law, particularly in cases of battered women who kill their assailants and battered women who are mothers. With a broad perspective on feminist lawmaking as a vehicle of social change, Schneider examines subjects as wide-ranging as criminal prosecution of batterers, the civil rights remedy of the Violence Against Women Act of 1994, the O. J. Simpson trials, and a class on battered women and the law that she taught at Harvard Law School. Feminist lawmaking on woman abuse, Schneider argues, should reaffirm the historic vision of violence and gender equality that originally animated activist and legal work.

During the 1970s, grassroots women activists in and outside of prisons forged a radical politics against gender violence and incarceration. Emily L. Thuma traces the making of this anticarceral feminism at the intersections of struggles for racial and economic justice, prisoners ' and psychiatric patients ' rights, and gender and sexual liberation. All Our Trials explores the organizing, ideas, and influence of those who placed criminalized and marginalized women at the heart of their antiviolence mobilizations. This activism confronted a "tough on crime" political agenda and clashed with the mainstream women ' s movement ' s strategy of resorting to the criminal legal system as a solution to sexual and domestic violence. Drawing on extensive archival research and first-person narratives, Thuma weaves together the stories of mass defense campaigns, prisoner uprisings, broad-based local coalitions, national gatherings, and radical print cultures that cut through prison walls. In the process, she illuminates a crucial chapter in an unfinished struggle—one that continues in today ' s movements against mass incarceration and in support of transformative justice.

In this revolutionary text, prominent Native American studies scholar and activist Andrea Smith reveals the connections between different forms of violence—perpetrated by the state and by society at large—and documents their impact on Native women. Beginning with the impact of the abuses inflicted on Native American children at state-sanctioned boarding schools from the 1880s to the 1980s, Smith adroitly expands our conception of violence to include the widespread appropriation of Indian cultural practices by whites and other non-Natives; environmental racism; and population control. Smith deftly connects these and other examples of historical and contemporary colonialism to the high rates of violence against Native American women—the most likely to suffer from poverty-related illness and to survive rape and partner abuse. Smith also outlines radical and innovative strategies for eliminating gendered violence.

Black women in marginalized communities are uniquely at risk of battering, rape, sexual harassment, stalking and incest. Through the compelling stories of Black women who have been most affected by racism, persistent poverty, class inequality, limited access to support resources or institutions, Beth E. Richie shows that the threat of violence to Black women has never been more serious, demonstrating how conservative legal, social, political and economic policies have impacted activism in the U.S.-based movement to end violence against women. Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence. As a result, the extent of physical, sexual and other forms of violence in the lives of Black women, the various forms it takes, and the contexts within which it occurs are minimized—at best—and frequently ignored. Arrested Justice brings issues of sexuality, class, age, and criminalization into focus right alongside of questions of public policy and gender violence, resulting in a compelling critique, a passionate re-framing of stories, and a call to action for change.
