## ~~School Students New Lexile Levels! What's a Lexile Score? How I Find Book Levels Conversion Chart For Lexile And~~

This conversion chart is based on educational levels from the published "Lexile Framework" chart. A smoothed curve was fit through the grade-level points indicated here, and regression analysis provided the equations:

$\text{Lexile} = 500 \ln(\text{Grade Level})$

or, the counterpart

$\text{Grade Level} = e^{0.002(\text{Lexile})}$

The resulting regression equation was then used to calculate the educational grade-levels in the above table.
