A STAND ALONE story in the bestselling SIX PACK RANCH series by New York Times Bestselling Author Vivian Arend ----- Three hurting hearts. Too many secrets. One chance to conquer their fears. Over the past year, Travis Coleman lost the two people he allowed closest to his heart. Both gave him ultimatums—then left. Hell if he needs that kind of pain again. Time to move forward without the friends he thought might save him from his dangerous cravings. When Ashley Sims returns to Rocky Mountain House, her rambling lifestyle isn't all she's hoping to change. Travis snagged a piece of her, and while getting tangled in his issues again might be crazy, she hasn't given up on him. Nine months ago, Cassidy Jones walked away to stop his best friend from making a huge mistake. Temptation lingers, though, and when Travis shows up on his turf accompanied by a sensually uninhibited woman, the combination tosses fuel on the banked fire. Passion flares among the three of them, as hot as the summer days. But are they willing to push the limits, and fight for love? Warning: Dirty fighting, dirty talk, dirtier sex—secrets are coming out. Get ready for ménage a trois and cowboy-on-cowboy action, with ropes and crops and the kind of relentless love strong enough to set a man free. Keywords: Canadian Author, cowboy, western, contemporary, small town For readers who enjoy: Jennifer Ryan, Joan Johnston, Kate Pearce, Linda Lael Miller, Lindsay McKenna, Diana Palmer, Maisey Yates, Vicki Lewis Thompson, Lorelei James.

At one time or another, most of us have experienced an all-consuming desire for a material object, a desire so strong that it seems like we couldn't possibly be happy without buying this thing. Yet, when we give in to this impulse, we often find ourselves feeling frustrated and empty. Advertisers, of course, aim to hook us in this way, and, from a global perspective, our tendency to get hooked fuels the rampant over-consumption that is having a devastating impact on the world's stability and on the environment. According to the contributors to this unique anthology, Buddhism can shed valuable light on our compulsions to consume. Craving and attachment—how they arise and how to free ourselves of them—are central themes of Buddhist thought. The writings in this volume, most of which have never been previously published, offer fresh perspectives and much-needed correctives to our society's tendency to believe that having more will make us happier. Hooked! includes a range of writings on how to apply Buddhist thought and ethics to understand and combat the problem of over-consumption as individuals and collectively. Contributors include popular Western teachers, Asian masters, scholars, and practitioners such as: • Pema Chödrön—on what is actually happening at the moment we're "hooked," and how to get beyond that. • Joseph Goldstein—on how mindfulness training can help us stop "wanting to want." • Bhikshuni Thubten Chödrön—on how consumer mentality influences spiritual practice. • Judith Simmer-Brown—on how cultivating spiritually based activism and compassionate action can help us address the negative effects of consumerism. • Rita Gross—on how understanding moderation can curb overconsumption. • Santikaro Bhikkhu—on practicing generosity in a consumer world.

DK Eyewitness Great Scientists is an exciting and informative guide to the fascinating lives of the world's most famous thinkers, philosophers, inventors, innovators and pioneers. Stunning photographs offer a unique "eyewitness" view of the ideas and innovations that have changed the way we live today. Your child will discover all about Benjamin Franklin's electrical charges, Albert Einstein's theory of relativity and the many others whose discoveries have shaped our world. Great for projects or just for fun, make sure your child learns everything they need to know about Great Scientists. Find out more and

No Single vision for the future of America existed after the Revolution. In light of social and economic changes, America's scope shifted from community-mindedness-the very heart of the republican ideal-to economic individualism. In *Moral Visions and Material Ambitions*, A. Kristen Foster describes how eager young entrepreneurs in Philadelphia manipulated America's moral vision of a classical republic to facilitate their own material ambitions, fostered by the free market economy that arose between 1776 and 1836. As market developments changed economic relationships in the city, men and women used the Revolution's republican language to help explain what was happening to them, and in the process they helped redefine class structure in Philadelphia. This study explores the ways Philadelphians used the Revolution and its powerful language of liberty and equality to impose meaning on their lives, as an expanding market irreversibly changed social and economic relationships in their city and, eventually, throughout the rest of the country. Book jacket.

Discusses the importance of civil engineering in the history of civilization, explores problems civil engineers face each day, and outlines some modern accomplishments in the field.

Unexpectedly catapulted into fame when a promo she makes for a dance studio fund raiser goes viral, ambitious Kenisha is invited to become a rap star's protégée but finds her new career taking her away from her school, family and friends. Original.

This refreshing approach to the act of dreaming allows you to explore your full potential through the control of your dreams. It aches the reader how to construct dreams that will improve reality, and demonstrates how such dreams directly affect our lives.

This publication establishes a basic understanding of materials used in civil engineering construction as taught in tertiary institutions across South Africa. It uses the objectives of the NQF in promoting independent learning and is the only book pertaining to Civil Engineering that covers all the necessary topics under one roof.
