activity level. The annual cost of property taxes for a production facility is a fixed cost, independent of the production level and number of employees.

Engineering Costs - Oxford University Press

Economic efficiency (%) = $\frac{\text{Output}}{\text{Input Cost}} \times 100 = \frac{\text{Worth}}{\text{Cost}} \times 100$ 'Worth' is the annual revenue generated by way of operating the business and 'cost' is the total annual expenses incurred in carrying out the business. For the survival and growth of any business, the economic efficiency should be more than 100%.
