Revealing interviews with Arrau, Brendel, de Larrocha, Gilels, Horowitz, Tureck, Watts, 18 other artists. Intimate look at the concert scene and the life of a concert pianist. Introduction by Sir George Solti. Includes 51 photographs.

Great modern teacher and pianist's concise statement of principles, technique, and related material. Includes 10 musical examples.

283 pages/240 exercises. The Virtuoso Pianist (Le Piano Virtuose) by Charles-Louis Hanon, is a compilation of sixty exercises meant to train the pianist in speed, precision, agility, and strength of all of the fingers and flexibility in the wrists. First published in Boulogne, in 1873, The Virtuoso Pianist is Hanon's most well-known work, and is still widely used by piano instructors and pupils. The first part, consisting of exercises 1 - 20, is labeled "preparatory exercises." These are also the most famous exercises.

So many of the great pianists and teachers have come out of Poland and Russia (Rubinstein, Anton as well as Arthur, Leschetizky, Paderewski, the Lhevinnes, Gilels, Richter, and others), yet we know little about their methods of learning and teaching. George Kochevitsky in The Art of Piano Playing supplies some important sources of information previously unavailable in the United States. From these sources, tempered by this own thinking, Kochevitsky formulated a scientific approach that can solve most problems of piano playing and teaching. George Kochevitsky graduated in 1930 from Leningrad Conservatory and did post-graduate work at Moscow Conservatory. After coming to the U.S., he taught privately in New York City, gave a number of lectures, and wrote for various music periodicals.

"This classic was written by a student of Godowsky and legendary piano teacher whose practical advice on tone, technique, teaching, and other subjects is seasoned with personal experiences and leavened with humor"--

This book is based on detailed notes taken by the author during a decade of study under one of the renowned teachers of piano, whose pupils included such pianists as Gary Graffman, Lilian Kallir, Jacob Lateiner, and Sylvia Saremba and such composer/conductors as Samuel Barber, Leonard Bernstein, Lukas Foss, and Thomas Scherman. Following a brief chapter on Vengerova's personality, the author presents the Vengerova system in respect to posture and hand position, accents, &"singing tone,&" fingering, and pedaling. A final chapter discusses the merits of a relatively rigid system of musical instruction, concluding that Vengerova's approach encouraged &"variety with an underlying unity"&—a conclusion supported in a survey of her former pupils by Joseph Rezits. The book is illustrated with photographs and excerpts from musical scores. An appendix includes an article by the Soviet musicologist Vitaly Neumann on Isabelle Vengerova's teaching at the St. Petersburg Conservatory from 1906 until the Revolution, following a concert career. It also includes an obituary by Jay S. Harrison outlining her teaching accomplishments at the Curtis Institute and the Mannes College of Music between 1924 and her death in 1956.
