2016 Silver Nautilus Book Award Winner From the best-selling author of *Cooking Class* comes this creative, hands-on activity book that teaches kids where food comes from. *Farmers Market Create-and-Play Activity Book* features more than 100 stickers and nearly 150 punch-out paper pieces. Kids will have everything they need to set up a pretend farm – including gardening tools, plant markers, and a toy tractor – and then peddle their wares with signs, price tags, and a cute shoebox cash register. Fruit and veggie punch-outs do double duty as props and templates to make adorable felt versions to fill up their baskets. Games and activities sprinkled throughout help kids learn while they play, meaning that parents, too, will love this bounty of fun!

In this story, readers get to visit local farmers, fill baskets with fresh fruits and vegetables, and then head home to cook a feast, all with goodies from the farmers' market! Featuring Stefan Page's graphic art, this delightful ebook is filled with bold splashes of color and unique patterns. Plus, this is a fixed-format version of the book, which looks nearly identical to the print version.

This groundbreaking and life-changing work based on the latest research effectively demonstrates “the profound impact that love, connection, and kindness have on our health” (Mark Williamson, PhD, director of Action for Happiness). When Columbia University doctor Kelli Harding began her clinical practice, she never intended to explore the invisible factors behind our health. But then there were the rabbits. In 1978, a seemingly straightforward experiment designed to establish the relationship between high blood cholesterol and heart health in rabbits discovered that kindness—in the form of a particularly nurturing post-doc who pet and spoke to the lab rabbits as she fed them—made the difference between a heart attack and a healthy heart. As Dr. Kelli Harding reveals in this eye-opening book, the rabbits were just the beginning of a much larger story. Groundbreaking new research shows that love, friendship, community, and our environment can have a greater impact on our health than anything that happens in the doctor's office. For instance, chronic loneliness can be as unhealthy as smoking a pack of cigarettes a day; napping regularly can decrease one's risk of heart disease; and people with purpose are less likely to get sick. At once paradigm-shifting and empowering, *The Rabbit Effect* illuminates vital public health research showing kindness in our day-to-day lives can make the “world a healthier, happier place. I recommend this book highly for anyone who wants to live more healthfully” (Christy Turlington Burns, and CEO of Every Mother Counts).

The Davis Farmers Market Cookbook invites you to shop and cook through the seasons with the author as she shares cooking tips, culinary passions, market lore, and history. More than just a collection of 85 recipes, the book offers a "Basics" section that shows you how to adapt eight recipes, from risotto to fruit pies, throughout the year. In addition to glorious photos of food, farms and vendors, there is a year's worth of monthly menus.

This two-volume set constitutes the refereed post-conference proceedings of the 12th International Conference on Simulation Tools and Techniques, SIMUTools 2020, held in Guiyang, China, in August 2020. Due to COVID-19 pandemic the conference was held virtually. The 125 revised full papers were carefully selected from 354 submissions. The papers focus on simulation methods, simulation techniques, simulation software, simulation performance, modeling formalisms, simulation verification and widely used frameworks.
