The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat terrorism in the Taliban ' s backyard Anyone who despairs of the individual ' s power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who, following a 1993 climb of Pakistan ' s treacherous K2, was inspired by a chance encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and dangerous regions on earth. As it chronicles Mortenson ' s quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, Three Cups of Tea combines adventure with a celebration of the humanitarian spirit.

ROAD & MOTOR VEHICLES: GENERAL INTEREST. AUSTRALIAN. Going straight to the heart of what it means to be Australian, this book is a must-have addition to any Ford or Holden lover's bookshelf. Never before has this nation-dividing topic been faced head-on, and written about in such a detailed and humorous way.

On a shopping trip to the department store, Max's determination to get a dragon shirt leads him away from his distracted sister and into trouble.

Originally published in 1919, this book draws on Anglo-Saxon texts overlooked by previous compilations 'to represent as many sides as we could of the life of our forefathers' and also presents an aid to students of varying levels. Combining both prose and poetry texts from early West Saxon prose onwards, and with a detailed glossary and notes, this book will be of value to anyone with an interest in the Anglo-Saxon language.

Music has been critical to national identity in Latin America, especially since the worldwide emphasis on nations and cultural identity that followed World War I. Unlike European countries with unified ethnic populations, Latin American nations claimed blended ethnicities—indigenous, Caucasian, African, and Asian—and the process of national stereotyping that began in the 1920s drew on themes of indigenous and African cultures. Composers and performers drew on the folklore and heritage of ethnic and immigrant groups in different nations to produce what became the music representative of different countries. Mexico became the nation of mariachi bands, Argentina the land of the tango, Brazil the country of Samba, and Cuba the island of Afro-Cuban rhythms, including the rhumba. The essays

collected here offer a useful introduction to the twin themes of music and national identity and melodies and ethnic identification. The contributors examine a variety of countries where powerful historical movements were shaped intentionally by music.
