In *Strategic Management: Theory and Practice, Fourth Edition*, John A. Parnell leads readers through detailed, accessible coverage of the strategic management field. Concise and easy to understand chapters address concepts sequentially, from external and internal analysis to strategy formulation, strategy execution, and strategic control. Rather than relegating case analysis to a chapter at the end of the book, Parnell aligns each chapter's key concepts with 25 case analysis steps. Current examples and high interest real-time cases, largely drawn from *The Wall Street Journal* and *Financial Times*, illustrate the key role of strategic management in the United States and around the world.

The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics.

Unfiltered is a satirical and raw discussion about anti-corruption in the Middle East. While informative, it is written in a dark and somewhat rough voice that the author refers to as the pirate. Pirates are not known for their good manners. Unfiltered defines and explains what constitutes a robust anti-corruption program for the Middle East, but it includes some personal anecdotes from the authors twenty years of experience in Saudi Arabia. Unfiltered says things that many in the corporate world can dare to only think about but can never say out loud without risking the unemployment line, court, or jail.

With a Haynes manual, you can do it yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle. As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
