~~Why wasn't Mazda's rotary engine successful? - Quora~~

The Mazda Wankel engines are a family of Wankel rotary combustion car engines produced by Mazda.. Wankel engines were invented in the early 1960s by Felix Wankel, a German engineer. Over the years, displacement has been increased and turbocharging has been added. Mazda rotary engines have a reputation for being relatively small and powerful at the expense of poor fuel efficiency.
