The original PlayStation 3's case was designed by Teiyu Goto of Sony, and uses the Spider-Man 3 font. It has a glossy piano-black finish, and the power and eject buttons are touch-sensitive. The PlayStation 3 Slim is quieter and more compact than its predecessor. The engraved logo is an update of the PS2's with curved edges.

Playing with Videogames documents the richly productive, playful and social cultures of videogaming that support, surround and sustain this most important of digital media forms and yet which remain largely invisible within existing studies. James Newman details the rich array of activities that surround game-playing, charting the vibrant and productive practices of the vast number of videogame players and the extensive 'shadow' economy of walkthroughs, FAQs, art, narratives, online discussion boards and fan games, as well as the cultures of cheating, copying and piracy that have emerged. Playing with Videogames offers the reader a comprehensive understanding of the meanings of videogames and videogaming within the contemporary media environment.

In this handy, compact guide, you ' ll explore a ton of powerful SUSE Linux commands while you learn to use SUSE Linux as the experts do: from the command line. Try out more than 1,000 commands to find and get software, monitor system health and security, and access network resources. Then, apply the skills you learn from this book to use and administer desktops and servers running openSUSE and SUSE Linux Enterprise or any other Linux distribution.

“ Masterfully captures the largely forgotten saga of warrior queens through the ages . . . an epic filled with victory, defeat, and legendary women. ” —Patrick K. O ’ Donnell, bestselling author of *The Indispensables* History ’ s killer queens come in all colors, ages, and leadership styles. Elizabeth Tudor and Golda Meir played the roles of high-stakes gamblers who studied maps with an unblinking, calculating eye. Angola ’ s Queen Njinga was willing to shed (and occasionally drink) blood to establish a stable kingdom in an Africa ravaged by the slave trade. Caterina Sforza defended her Italian holdings with cannon and scimitar, and Indira Gandhi launched a war to solve a refugee crisis. From ancient Persia to modern-day Britain, the daunting thresholds these exceptional women had to cross—and the clever, sometimes violent ways in which they smashed obstacles in their paths—are evoked in vivid detail. The narrative sidles up to these war queens in the most dire, tumultuous moments of their reigns and examines the brilliant methods and maneuvers they each used to defend themselves and their people from enemy forces. Father-daughter duo Jonathan W. and Emily Anne Jordan extoll the extraordinary power and potential of women in history who walked through war ’ s kiln and emerged from the other side—some burnished to greatness, others burned to cinders. All of them, legends. “ Reminds us intelligently, entertainingly and powerfully that strong-willed women have always been the equal—and very often the superior—of their male counterparts, even in the field historically most jealously reserved for men: warfare. ” —Andrew Roberts, *New York Times* – bestselling author “ This book should be required reading for anyone who loves history. ” —James M. Scott, Pulitzer Prize finalist
