Discover original steampunk tales in this anthology of stories written before there were actual rocketships, atomic power, digital computers, or readily available electricity. The modern day steampunk genre is a reinventing of the past through the eyes of its inventors and adventures, but this collection is from real Victorians and Edwardians who saw the future potential of science and its daring possibilities. Steam-powered

automobiles, submarines, and robots are featured alongside great airships and spaceships in these bold and creative stories of hope, triumph, and disaster.

An anthology focusing on newer elements of steampunk, one which deconstructs the staples of the genre and expands on them, rather than simply repeating them, with a greater spread both in terms of location and character. This is steampunk with a modern, post-colonial sensibility. Contributors include: Jeff VanderMeer, Caitlín Kiernan, Mary Robinette Kowal, Jay Lake, Cherie Priest, Cat Rambo,

Modern masters of the supernatural weave their magic to revitalize the chilling Victorian and Edwardian ghostly tale: here are haunted houses, arcane inventions, spirits reaching across the centuries, ghosts in the machine, fateful revelations, gaslit streets scarcely keeping the dark at bay, and other twisted variations on the immortal classics that frighten us still.

breath of blue flames--first leapt to public attention in Victorian London in 1838, springing over hedges and walls, from dark lanes and dank graveyards, to frighten and sometimes physically attack women. News of this strange and terrifying character quickly spread, but despite numerous sightings through 1904 he was never captured or identified. Exploring the vast urban legend surrounding this enigmatic figure, John Matthews explains how the Victorian fascination with strange phenomena and sinister figures paired with hysterical reports enabled

Spring-Heeled Jack to be conjured into existence. Sharing original 19th-century newspaper accounts of Spring-Heeled Jack sightings and encounters, he also examines recent 20th and 21st-century reports, including a 1953 UFO-related sighting from Houston, Texas, and disturbing accounts of the Slender Man, who displays notable similarities with Jack. He traces Spring-Heeled Jack's origins to earlier mythical beings from folklore, such as fairy creatures and land spirits, and explores the theory that Jack is an alien marooned on Earth whose leaping prowess is

attributed to his home planet having far stronger gravity than ours. The author reveals how Jack the Ripper, although a different and much more violent character, chose to identify himself with the old, well-established figure of Spring-Heeled Jack. Providing an extensive look at Spring-Heeled Jack from his beginnings to the present, Matthews illustrates why the worldwide Steampunk community has so thoroughly embraced Jack.
