!Talking to the Enemy is recommendable not just for its vivid insights into the motivation of terrorists, butalso for its study of Islamic radicalisation and the anthropology of religion in general.!(Michael Bond, New Scientist)

Talking to the Enemy: Faith, Brotherhood, and the (Un ...

A brilliant study of the social and psychological mechanisms that lead to terrorism, Talking to the Enemy rejects popular misconceptions about suicide bombers, radical Islam, and the relationship between religion and war. Atran's surprising and insightful conclusions show how our tolerance of faith enables extremists to flourish and why atheism and science education have little effect, while providing a path for deradicalization.

!Talking to the Enemy on Apple Books

In "Talking to the Enemy," social scientist Scott Atran makes an elaborate case for seeking to find common ground with terrorists. His subtitle: "Faith, Brotherhood, and the (Un)making of Terrorists" tells us, in effect, that humanity is dependent upon faith to generate larger communities (brotherhoods) that will develop enough respect and restraint within themselves not to hurl suicide ...
