The Emporium opens with the first frost of winter. It is the same every year. Across the city, when children wake to see ferns of white stretched across their windows, or walk to school to hear ice crackling underfoot, the whispers begin: the Emporium is open! Christmas is coming, and the goose is getting fat ... It is 1917, and London has spent years in the shadow of the First World War. In the heart of Mayfair, though, there is a place of hope. A place where children's dreams can come true, where the impossible becomes possible - that place is Papa Jack's Toy Emporium. For years Papa Jack has created and sold his famous magical toys: hobby horses, patchwork dogs and bears that seem alive, toy boxes bigger on the inside than out, 'instant trees' that sprout from boxes, tin soldiers that can fight battles on their own. Now his sons, Kaspar and Emil, are just old enough to join the family trade. Into this family comes a young Cathy Wray - homeless and vulnerable. The Emporium takes her in, makes her one of its own. But Cathy is about to discover that while all toy shops are places of wonder, only one is truly magical ...

survival that lies in all of us. ' Hannah Kent, author of *Burial Rites* A person is defined by the secrets they keep . . . Adam Kulakov likes his life. He's on the right side of middle age; the toy company he owns brightens the lives of children around the world; and he has more money than he can ever spend, a wife and child he adores, and as many mistresses as he can reasonably hide from them. And he is not the only one with secrets. In 1944, Adam's grandfather, Arkady, was imprisoned in Auschwitz and given an impossible choice. Now, as he's coming to the end of his life, he has to keep the truth from his family, and hold back the crushing memories of his time with one of history's greatest monsters. As a mistake threatens to bring Adam's world tumbling down around him, the past reaches for Arkady. Everything he's spent a lifetime building will be threatened, as will everything Adam and his family think they know of the world. Bold, dark and compelling, *The Toymaker* is a novel about privilege, fear and the great harm we can do when we are afraid of losing what we hold dear. ' Pieper writes superbly. *The Toymaker* gives immediate and absorbing pleasure, and has similarities to J M Coetzee ' s *Disgrace* in terms of the main character ' s wretched search for redemption, both for himself and for humanity.
