and secure energy system or an agent of change.

## **IEA's World Energy Outlook 2020 | News Break**

World output could be 1 million barrels a day higher this month as the U.S. recovers from hurricane disruptions and as Libya resumes exports, the agency said. Libya , one of the three OPEC nations exempt from the agreement to restrain output, tripled production to 450,000 barrels a day last month as its political tumult abated, the IEA said.
