Don't face reality. Create reality! E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine

Online Library You Squared

48-hour experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton's laws of motion. For years, you've been hoping and praying that spiritual principles are true. Now, you can know. E-Squared proves the following: 1. There is an invisible energy force or field of infinite possibilities. 2. You impact the field and draw from it according to your beliefs and expectations. 3. You, too, are a field of energy. 4. Whatever you focus on expands. 5. Your connection

Online Library You Squared

to the field provides accurate and unlimited guidance. 6. Your thoughts and consciousness impact matter. 7. Your thoughts and consciousness provide the scaffolding for your physical body. 8. You are connected to everything and everyone else in the universe. 9. The universe is limitless, abundant, and strangely accommodating.

A richly atmospheric portrait of women's agency and the timelessness of love, *Time Squared* explores the enduring roles of rights, responsibility, and devotion throughout history. The game will change when you remember who you are. Robin and Eleanor meet in 1811 at the British estate of Eleanor's rich aunt Clara. Robin is about to leave to fight in the Napoleonic Wars, and her aunt rules out a marriage between them. Everyone Eleanor knows, including Robin, believe they've always lived in these times. But Eleanor has strange glimpses of other eras, dreams that aren't dreams but memories of other lives. And

their time jumps start as their romance deepens. Robin fights in the Boer War, the First and Second World Wars, in Vietnam and Iraq. Meanwhile, Eleanor struggles to figure out what's going on, finally understanding that she and Robin are being manipulated through time. Who is doing this, and why? Arriving in modern times, Eleanor sets off to confront the ones she discovers are behind this — chessmasters playing her like a pawn. Eleanor's goal? To free herself to live out her life on her own terms. Time Squared examines the roles women are forced to play in different centuries, the power they're allowed, the stresses they face — and what this does to their relationships.
